GENERAL BACKGROUND

Charles

Camilla

IDENTITY: Though the Sun Sign is obviously a very general factor in relationships, it is - together with the sign the Moon is in - nonetheless powerful. It is important to remember that any Sign can successfully relate to any other Sign. Statistically there are no pre-dispositions of one Sign to another. However the interaction between two Sun Signs will give rise to special pleasures or challenges which will form part of the process of personal development for each partner. Your Sun Sign reflects your personal identity and desire to realise yourself - what is important is whether you feel supported in this quest or not.

Sun in Scorpio

Develop emotional insight

As a Scorpio you are deep and inscrutable. You are looking for emotional commitment and intensity in a partner and you make no compromises until you have found it. You need a partner who appreciates your emotional honesty yet can accept your own unfathomable and rather secretive nature. You cannot tolerate any threat once you have made a commitment - your partner soon learns that flirtatiousness or emotional dishonesty has unacceptable consequences.

Sun in 4th House

You express your identity strongly in your home and family. These things are the axis on which your life turns.

Charles's Sun in Camilla's 5th House

You make Camilla powerfully aware of herself as an individual and evoke in her a greater capacity for self-expression. For you, one of the main priorities in the relationship is to discover the child within and have fun. Having children together can make you both feel complete.

Sun in Cancer

Sense of belonging

As a Cancer you are sensitive and emotionally vulnerable with a strong tendency to develop dependence in a relationship. This may mean that you become possessive and sulky when thwarted. Family is a high priority so you are looking for a partner with whom you may establish a safe and cosy haven built around a home and children. You do not want a partner who threatens your emotional security in any way.

In some cultural traditions women have tended to repress their individuality and to project aspects of their personal identity onto their partner. Women with the Sun in Cancer may well be attracted to the emotional kind of man, possessive and moody and aggressively defensive about anything to do with the family. Time will show however that these qualities are actually much stronger in you than in your partner.

Sun in 12th House

Defining your identity is no easy matter for you as you sometimes feel rather diffuse and vague about your role in life. This draws you into areas of interest in which your selfless qualities can manifest themselves.

Camilla's Sun in Charles's 12th House

You make Charles aware of the importance of subtle emotional and spiritual factors as a basic power behind existence. Circumstances in your relationship suggest that an element of sacrifice or isolation is necessary for your true self-realisation.

Sun positive Sun: This harmonious contact is a major compatibility factor because both have a similar outlook on life on a very deep level and the same kind of need for self-expression. There is a similarity of missions which brings mutual support and encouragement. Furthermore, times of change or crisis will tend to be experienced at roughly the same time - particularly with regard to identity and creativity.

What makes people with the same Sun Signs so different is the contacts to other planets - or aspects - that the Sun makes. The following section shows which planets in your horoscope aspect your Sun and thereby modify your identity - and what consequences this may have in relationships.

Sun negative Pluto

Breakdown, build-up

Your life is characterised by periodic identity crises, in which the past crumbles into the dust and you uncompromisingly create a new identity for yourself. This leads inevitably to battles of power with the people you are involved with. You invest others with power over your life and become totally absorbed in fighting for a control which, in reality, was yours all along. Your partner experiences anxiety and exhaustion acting as an unwilling therapist whilst you go through this process.

Sun positive Mercury

A subjective view

Considerable self-esteem is invested in your ideas and opinions. You may be very creative but have difficulty seeing matters objectively. It is not always easy for you to see things from your partner's point of view. Personal pride interferes with communication.

Your ideal is an intelligent and witty man, with the ability to express his deepest thoughts - though this, of course, is a better description of your own abilities.

Your ability to realise yourself, and the attitude that your partner has to this quest for self-realisation, is shown by the interaction between the Sun in the one horoscope and the planets in the other. This has a profound effect on how you are able to express yourself in each other's company.

Charles's Sun positive Camilla's Mercury

The mental spark

You are fascinated and energised by the way Camilla walks, talks and thinks. You find her fun to be with and inspiring to communicate with. Together you like to be on the move, meeting people, travelling or learning. She gets you to lighten up and either see the humour of the moment in some situations or understand what's going on in others. She awakens your curiosity about life and can be a great teacher and an even better student. Apart from being able to mine her for information you can gain insight into your own character, through listening to her ideas and reflections. As a team you would perform well in an advisory role or as information-gatherer and teacher.

Camilla is the ideas-person and you are constantly inspired by her remarks and comments. This leads you to reflect on yourself and build up your

Camilla's Mercury positive Charles's Sun

The mental spark

This is a major compatibility factor which truly enhances your ability to communicate together. Generally you feel a strong respect for Charles, you are curious about his ideas and willing to disseminate them to others. When he takes himself too seriously you know how to make him lighten up, when he is short of inspiration your thoughts can make a difference. This would be quite a good working partnership, in which your role would be messenger and secretary perhaps. You have an active and very mental relationship and this would involve you getting out and about together and making contact with others, communicating or writing.

You are the ideas person, bringing inspiration and information to Charles. You have much to offer him both intellectually and in the art of communication.

confidence.

Charles's Sun positive Camilla's Jupiter

Mentor and guru

This is a very fortunate contact for you both, bringing happiness and great personal growth. Camilla can always present things in an optimist light for you. There is tremendous mutual respect and you will find your understanding of life considerably enhanced by the ideas and views of Camilla who opens up worlds for you. It is to your advantage to travel and expand your horizons together - especially in spiritual or philosophical directions. she may assume a mentor role in your life, though you will retain the executive power. As trusty counsellor, she can help you on your way to success and recognition, and as a couple, you are surely destined for prominence. You can attain an influential role in cultural, political, intellectual or economic areas.

Camilla's Jupiter positive Charles's Sun

Mentor and guru

This is a very beneficial influence because you are able to absorb, nurture, contain and expand all the positive facets of your partner's life. You show tolerance and understanding - because you really do understand and appreciate the character of Charles. In turn he warms to you and you help him develop a positive attitude to himself and his future. You help him expand his horizons through cultural and philosophical interests, world travel and further education. In this way you increase his awareness of life's big issues and help him develop a deeper insight into the meaning of his life. Together you make a popular and influential couple.

You win a lot of respect and admiration from Charles because of your insight and wisdom.

EMOTIONAL FACTORS: The Moon represents powerful instincts for security and emotional well-being. At the same time the Moon shows subconscious reaction patterns that can either enhance or sabotage harmony. The Moon shows the kind of atmosphere you create in your home. The emotional environment evoked by the expression of your Moon Sign is of crucial importance in your relationship.

Moon in Taurus

Maintain solid foundations

With your Moon in Taurus you are general very calm - even placid. You tend to avoid unpredictable situations and concentrate on creating a secure environment, both materially and emotionally. You are stubborn and too slow to adapt to changing emotional conditions in a relationship. Though excellent at giving emotional support and succour, you may fail to recognise the need for development and change in your partner.

Moon in 10th House

You are very emotionally involved with your standing in society and with issues of authority. Your mother probably has a profound influence on you and your direction in life.

Charles's Moon in Camilla's 10th House

You become strongly drawn to and involved with Camilla's ambitions and goals. She needs your support and you become rather dependant on her success, experiencing profound swings of mood if setbacks occur to her career.

Moon in Cancer

Create a secure atmosphere

With your Moon in Cancer you are extraordinarily vulnerable and sensitive. When you make an emotional commitment your whole being is on the line. This puts your partner under emotional pressure especially as you tend to use the whole emotional register, to ensure that your bond is not threatened. Though you provide a wonderful environment for home and family, you should strive to overcome possessiveness and sulky tactics.

Moon in 12th House

Your emotional life is private and forms a deep and magic inner world. You need time alone to devote yourself to this world of feeling and sensation.

Camilla's Moon in Charles's 12th House

Being with Charles evokes a deep longing from your soul and an awareness of the ephemeral nature of all emotional bonds. This could encourage you to develop your spiritual or creative interests, as you know you are basically alone and cannot afford to become too dependant.

As Charles has the Moon in Taurus, there is a strong need to create a stable and secure environment. Camilla, with Moon in Cancer also has an extremely strong need for security, both materially, emotionally and in terms of home and family. This makes for a stable relationship with mutual back-scratching.

This section shows the influence of different planets in your own horoscope upon your Moon - major factors in shaping your emotional life. These aspects from other planets to your Moon will evoke the following subconscious patterns, creating a partnership environment in which you must either sink or swim.

Moon negative Mercury

Emotions hold sway

You are a very emotional person and this tinges the way you communicate. You may sway other people with your feelings and influence them with your mood, but in stress situations you blow it, losing coherence because your feelings predominate over everything else.

You are instinctively attracted to intelligent and communicative women, but you will often find them becoming emotional or irrational. This is your subjective view - you may be unaware of the strength of the emotions you arouse when you communicate.

Moon positive Jupiter

Emotional generosity

You have a magnanimous and warm emotional nature with great tolerance and a fine sense of humour. Travels and cultural events augment your understanding of others. Your positive attitude creates fortunate circumstances both economically, and in terms of your feelings of security.

Moon negative Neptune

The emotional swamp

Negative moods tend to drag you down all too easily. You tend to perpetuate feelings of discontent, sadness or martyrdom from your own childhood, particularly in relation to your mother. Your tendency to isolate yourself when under emotional pressure creates a depressive atmosphere. Ensure that you are involved in something creative and meaningful and strive to avoid emotional swamps - they're just bad habits.

The interaction between the Moon in the one horoscope, and the planets in the other, has a profound effect on the kind of atmosphere you create together. This section describes how and where you are emotionally touched by your partner, for good or ill. In this area you are at your most vulnerable and least aware. Conscious work on irrational emotional reactions is the key to harmony here.

Fond chat

This extremely positive connection brings a wonderfully varied life together with a good deal of fun, happiness and harmony. You can chatter on about all manner of things and you will personally feel that you have an ideal listener in Camilla. You really feel understood and you also sense that she enjoys listening to you rattling on about your thoughts and ideas. Later in life you will enjoy reminiscing together. The sense of being in mental

Fond chat

This contact indicates a warm and stimulating bond between you and is very favourable for the relationship. You feel comfortable together and can talk easily - especially about reminiscences. You feel that Charles understands you and can help you put words to what you feel. You really know how to make your everyday life function harmoniously and you enshrine this knowledge in your cosy habits and instinctive understanding of

and emotional harmony permeates much of what you do and is especially conducive to having a family and bringing up children. You create a good environment for healthy growth in children, both intellectually and emotionally. Basically you will agree on most everyday matters.

You are the one with the ideas, witty and intelligent; Camilla comes with the response, deeply felt and supportive.

Charles's Neptune negative Camilla's Moon

Emotional mists

Though not the most powerful of influences this contact will nevertheless affect your emotional life together. It is as if being with Camilla implies some sacrifice on your part and a kind of unhappiness tinges your relationship. These intangible feelings are evoked in you through being with her, but it is difficult to discern what the precise cause is or to know what to do to lift yourselves out of the fog. These feelings are exacerbated by drugs or alcohol, and during the course of time you may find that it is wise to live a purer life together, so that you may gain emotional clarity. Working to help others whose life is unfortunate in some way, or pursuing spiritual or creative interests, would make good outlets for the energies within the relationship.

each other. You have a precious ability to tune in to what he is thinking. This is very positive for the upbringing and education of children together.

You are stimulated by your partner's witty and stimulating mind and get great pleasure in talking - especially about the past, which you remember well.

Camilla's Moon negative Charles's Neptune

Emotional mists

Though not a major factor in your relationship this contact is extremely stimulating for your fantasies. This can be very interesting for you on a creative level but the tendency is for Charles to stimulate your own latent tendency to be unrealistic or moody. His talent for empathising may simply encourage you to indulge in negative feelings of martyrdom or feeling victimised. Just because you have his emotional support this does not mean that you are justified in feeling the way you do. You may also find it difficult to pin him down in matters affecting your feelings and your security - the truth is that you awaken a measure of uncertainty and confusion in Charles and he therefore finds it difficult to express what he feels and clarify his emotional commitments.

YOUR SOUL MATE

THE DESCENDANT SIGN: The disposition towards specific kinds of relationships is shown by the East/West horizon in your horoscope - the Ascendant/Descendant axis - and particularly the sign on the Descendant - the 7th House cusp. A person may be attracted to many different kinds of partner, but the horoscope will often indicate a specific destiny with regard to long-term relationships. The lasting partnership will be a mixture of love and destiny - if we are to spend many years together, there will be struggle and growth as well as happiness. This destiny is shown by the 7th house of the horoscope, which indicates personality traits which we tend to deny in ourselves and are fated to seek in others.

Descendant in Aquarius

Seeking unconventionality

Whilst you spend much of your energy trying to realise yourself in the centre of the world's stage, you are drawn to a partner whose own identity has a lower personal priority. This person will be versatile and communicative with many mental interests. You are brought into contact with many people through this relationship and develop a wide range of mental skills.

network which is a constant source of enlightenment to you. You will often find your partner involved with friends or special interests, with seemingly little time to devote to you. Actually this remoteness in relationships is partly because you are somewhat self-involved and attention-seeking, and this paradoxically evokes in others a tendency to distance themselves. Through relationships you can learn greater objectivity concerning your life and the direction in which you are going. Issues in the relationship then centre around subjectivity and objectivity, and you learn to appreciate, with time, that everyone feels different and rather special.

Your life-style will inspire Charles on an inner level as he strives to understand the hidden emotional and spiritual factors which are part of your life. This may involve some sacrifices on his part.

Both Charles and Camilla have the Descendant in Aquarius, which means they are creative and self-absorbed individuals unconsciously searching for a partner who can help them develop their consciousness and greater social awareness. Whilst both will agree in matters of lifestyle, there may be some difficulty fulfilling each other's behavioural expectations.

This section shows the influence of different planets in your own horoscope upon your Ascendant/Descendant axis - major factors in shaping your relationships. These aspects from planets to your Ascendant will give you a specific attitude and behaviour towards everyone you relate to.

Mercury negative Ascendant

Distraction

Communication is a very important aspect of a relationship for you, and you are skilled at making contact and getting the words to flow. However, you often feel misunderstood and lack of confidence may make you unconvincing. You often feel like a lightweight in intellectual matters, but a mastery of real knowledge will win confirmation, so it is just a question of working at educating yourself.

Neptune positive AS

Dream partner

You are an imaginative person with a caring and idealistic nature. You are attracted to a person for magical rather than practical reasons, as you are seeking the ineffable in a partner. This can make your choice unrealistic, as few people can live up to your expectations. You focus on the good sides of your partner, and studiously avoid facing realities.

Aspects from planets in one horoscope to the Ascendant/Descendant axis of the partner's horoscope, are major factors showing the strong likelihood of a meaningful long-term relationship. It is these contacts which make all the difference between mere attraction, and the ability to influence each other's lives. You have the following bond:

In searching for someone to live together with, there is a strong urge to find a person who expresses characteristics which we possess ourselves but fail to recognise and develop. Finding a partner will often compensate for this and make us whole. These characteristics sought in the partner are shown by the planet ruling the sign on the Descendant, and its Sign and House position, and its Aspects. The following section describes the kind of person you unconsciously seek, where you can meet this person - and what behaviour you evoke in the partner through needs unresolved in yourself.

Descendant ruler in 11th House

Partner and friend

Your partner tends to be a social type who is also very interested in self-realisation through creativity. This person will be both a friend and a lover to you, and you may be involved in some visionary or unconventional ventures together. Much of your time together will be spent with others socially, and there may be a special responsibility for children who are more connected to your partner than yourself. Partnerships develop surprisingly from friendships.

Descendant ruler positive Moon

A partner who cares

You should feel that your partner is tuned in to your deepest emotional needs. You agree on creating a secure emotional environment to build a home and family. As you are attracted to an emotional and sensitive person, with a bit of luck you will find that you have an unspoken understanding of, and sympathy for, each other.

Descendant ruler negative Jupiter

Opinions as an issue

You are attracted to a wise but rather opinionated partner who can expand your intellectual horizons. Unfortunately there are many disagreements about matters of principle and discussions about right and wrong. You often feel unfairly treated and fight for your rights. A relationship helps you define your beliefs and spiritual values, but both of you need to respect the other's freedom of belief.

If there are planets in the 7th House there is then a tendency to meet a specific type of partner and have a specific type of experience. Planets in this house show strong drives in you which may only be fulfilled through contact with another. People expressing this energy are mysteriously drawn into your life, thus giving you the opportunity to get to know the shadow side of yourself.

LOVE AND SEX

ROMANTIC NEEDS: Whatever kind of relationship you commit yourself to in the long term, you have certain values which reflect your personal taste and inclinations, when choosing whose company you wish to enjoy. Should your partner not satisfy all your social needs, you will seek fulfilment in friendships and other connections. These social and romantic needs are reflected by Venus in your horoscope. Not only does Venus show what qualities you value in others, this planet will also reflect feminine self-esteem in a woman's horoscope, and the type of woman which a man is attracted to in a man's horoscope. For both sexes the position of Venus will show specific types of experiences in love - and what to do about them.

Venus in Libra

Taste and diplomacy

You have great talent for dealing with people, both on a social level and also when it comes to romantic matters. You have a light-hearted and balanced nature, and you are motivated towards creating harmony in your relationships. Your superior judgement and fine aesthetic sense are major assets in your love-life. Though a long-term relationship is important for you, you expect the aura of romance to be there constantly, and are prepared to do something about it if you feel it is missing.

Venus in Cancer

Build a loving environment

You are an emotional and very devoted person, and you need a partner on whom you can rely, and with whom you feel safe. Above all there has to be emotional rapport. You are inclined to be possessive - even smothering. If you feel rejected - and you are very vulnerable in matters of the heart - you can sulk for long periods. Harmony in family life is the single most important factor in your relationship and this is often expressed through love and attachment to children and your home.

Venus in 4th House

Domestic harmony

You express the warmest of affections for your family and are very attached to your home. You express yourself with grace and style in this area, and have little difficulty using your social talents to achieve results. Your attitude to relationships stems from the nature of the bond of affection between your parents. Beneficial childhood influences lead you to preserve old bonds and strive to create an atmosphere of harmony in the home. You like to surround yourself with beautiful things in your home environment. Romance blossoms through your family connections.

Venus in 12th House

Unrequited love

Love-relationships have a strong hold on your imagination though there is no guarantee that they become real or concrete. You express yourself emotionally and feel a strong attachment in this area, and this often becomes a major security anchor for you. Love is often unrequited - you can find love in nature, in poetry, in music, but with worldly relationships you may often put yourself in the position of loving someone who is not physically in a position to return your love, or to get involved with liaisons which will only make you feel isolated and unhappy. Love blossoms in remote places.

Charles's Venus in Camilla's 4th House

Camilla's Venus in Charles's 12th House

Your aesthetic values influence the whole atmosphere of your home and your talent for creating peace and harmony in this area evokes Camilla's pleasure and appreciation. You can help her to smooth relations with her own family and this in turn can give you great personal satisfaction.

You reveal to Charles the beauty of the inner-life found in nature, in music and art or in spiritual matters. This relationship may be one of unrequited longing in which satisfaction is difficult to achieve yet it is one in which you experience a refinement of the soul which awakens compassion within.

Venus negative Venus: This is quite a strong compatibility factor giving a certain closeness and intimacy. However, both have a tendency to display their romantic feelings and social inclinations differently, even though their motivations or styles may have similarities. There is therefore a risk that one partner will misread the loving signals that the other partner sends or simply does not appreciate the way the other gives love. These harmless misunderstandings can be overcome by discerning the motivation behind the action - which is the desire to give and receive affection.

Your capacity to give and receive love and your sense of self-worth are modified by contacts from Venus to other planets in your birth chart. These aspects reflect the many nuances in romantic taste, showing which particular brew of influences go into forming your personal judgements. The following section shows what attributes a person must have to be romantically attractive to you, and how your own personal values influence your love life.

Venus positive Neptune

Hollywood romance

You have a very romantic and loving nature and are willing to go a long way in the cause of love. Tolerant and understanding, you see the potential in other human beings, and love selflessly in the expectation that their potential will be realised as a result. Sometimes it will, but you are prone to disappointment. Furthermore you may easily be taken advantage of because you do not define what you can, or cannot, accept. You are apt to fall for an idealised picture of a person and are reluctant to open your eyes to see your loved one clearly - warts and all. Get real.

You are a real sucker for the diaphanous romantic woman with a heart of gold. You project upon her the purest virtues, partly because of your own "Hollywood" ideals about love. You can make it easier on your loved one by accepting her exactly

Venus positive Moon

Loving kindness

You are a soft and emotional person with a strong caring side and sense of devotion. Love is completely tied up with security so you are prepared to make many compromises to attain the closeness and safety you need. You are family-oriented and attached to home and children. You are expert at integrating a caring parental role with romantic and erotic intimacy.

Venus negative Neptune

Romantic sacrifice

You have extremely high ideals about personal relationships and are firmly convinced that the ideal relationship must be possible and is just around the corner. It is not. You have a responsibility to the person you are with to show you are committed, otherwise the idea that your love might be unrequited will just become a self-fulfilling prophecy. It is very difficult for your potential partners to live up to your expectations because you evince an indefinable longing which seems impossible to satisfy. Your need to indulge these feelings may actually stem from a childhood experience that your parents were dissatisfied with their own relationship.

The dream of love seems to turn sour for you in a long-term relationship. You often find yourself playing a martyr's role. It is entirely your

responsibility to clarify what kind of behaviour you are prepared to accept from your partner. Only spiritual or creative pursuits may satisfy the inner longing which you feel.

Mutuality: Please note that in this case both Charles and Camilla have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. Mutuality - positive/negative: Although dealing with this mutual influence will be easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and thus enhance the quality of your relationship. Venus/Neptune: This will express itself in a tendency to idealise the partner and then be disappointed. With time, creative and spiritual values awaken in you a greater understanding of the fallibility of human relationships.

Venus positive Pluto

The Earth moves?

You take love seriously and live out your passions with feeling and intensity. In return you expect your partner to be completely involved, just like you. You have the ability to get under the skin of your loved one, understanding in depth all the insecurities and deep needs that you find hidden within. In this sense you can have a therapeutic effect, because you can untie your partner's emotional knots. Intimacy is your highest priority, and this means that sexuality has high priority also - not just for sensory pleasures but because it offers a window to the soul.

The interaction between Venus in one horoscope and planets in the other, has a profound effect on how you are able to give and receive love. The following section shows to what extent your partner fulfils your need for love and what special behaviour characterises your love-life together.

Charles's Venus negative Camilla's Mercury

This is a strong contact for communication though you will often find that Camilla does not share your opinions and values. She often misinterprets your emotional needs, responding intellectually to your expressions of affection. She may feel that you fail to grasp her ideas. You are simply interested in a greater intimacy and feel that her rational approach creates distance. Nevertheless you learn a lot from each other and the relationship will function well if you first satisfy your partner's need to understand what makes you tick. You make a good team for bringing up children.

Camilla's Mercury negative Charles's Venus

Head meets heart

This is an important bond, giving a lot of shared areas of interest, especially socially. There are moments of happiness through children and family life but to some extent your basic needs are at cross-purposes. Charles does have a great need to be appreciated and liked by you but he may feel that you respond too flippantly or light-heartedly to the genuine need he has to hear assurances of affection. Flattery will get you a long way. Charles is particularly sensitive to argumentativeness and will often feel that you upset the harmony of a given situation with disruptive conversation. Nevertheless you have so much in common here

It may exasperate you that Camilla relates to your romantic needs in a flippant or analytical way but you can learn a lot if you enter into dialogue with her.

This is really a fine mutual influence, bringing a great deal of happiness and satisfaction to the relationship. Whatever other influences there may be between you, for better or for worse, this one tends to create an understanding atmosphere. Sweet words of love pass between you and you are simply inspired by the good graces of Camilla. You are happy to tell her what she wants to hear and she is happy to be entertained by your humour and your capacity to enthral. She gives you balance of mind. Children, too, can bring happiness and stimulation. This is a creative combination also giving an appreciation of beauty, education, language and culture. This combination gives an understanding and appreciation of harmony.

Camilla likes to hear you talk and you are grateful to have an admiring listener. Together you create balance.

In matters of taste Charles feels you to be picky and criticising. As far as aesthetics are concerned you can learn a lot from him. When it comes to details you can let him pick your brain.

There is a wonderful compatibility between you both as far as mentality and matters of personal taste are concerned. The essence of the love between you and Charles is communication. This can express itself both romantically and in practical matters. Your ability to talk and listen to him means that you also develop a good friendship where mutual kindness is important. You share the same values, both mentally and materially. Everyday life with Charles is sweetened by soft words, good humour, gifts and a tender concern. Should children arrive in your lives they will derive enormous benefit from the empathy and understanding which are the bedrock of your relationship.

Together you can make poetry - Charles's ideas are music to your ears and you can help him present himself stylishly.

Double-mutuality: Please note that both of you have exactly the same mutual aspect between the planets making cross-contacts from one horoscope to the other. This is a MAJOR factor of compatibility. Whatever other contacts there are between your horoscopes, for better or worse, this double influence shows a strong bond and increases the harmony and stability in the relationship. Double-mutuality - positive/negative: Although dealing with this mutual influence is easier for one of you to handle than the other, together you will work out lasting solutions to difficult problems and therefore enhance the quality of your relationship. Mercury/Venus: This will come to expression in the genuine curiosity and interest you take in each other, and in your ability to listen and understand in a courteous way.

This is a fun contact and indicates very romantic feelings between you and Camilla. Any inhibitions you may have felt in previous relationships dissolve like snow in the sun and you are inspired to explore each other's hearts and - not least - bodies. Camilla inspires you to use your imagination and see things in a compassionate light but you may often feel disappointment in the relationship, because dreams turn out to be illusions. Be aware that your latent tendency to idealise your loved one is strongly stimulated. The relationship may require a certain element of sacrifice perhaps, because of some unhappiness, illness or existential emptiness which afflicts her. All your love and affection may not be enough to make her satisfied, so it is important for you to learn to disassociate yourself from your partner's problems and see your relationship realistically. Though not the most powerful influence in your relationship this contact can exacerbate the latent tendency which Camilla in particular might have to over-idealise the love you feel for each other. There can be a tendency for you both to put each other on a pedestal and blindly worship imagined and projected qualities. In the long term this may lead to bitter disappointment, and it is healthier to tone down overheated romantic feelings. Other facets of this influence are the habit of idealising suffering in the relationship or sacrificing oneself for the partner in one way or another. This contact emphasises deep and passionate issues in your relationship with Camilla. Scorning superficial issues you explore the hidden areas of each other's souls, pushing aside social and sexual taboos to reach the core of emotional experience. Being together means a constant emotional revision of the past, so that your relationship continually evolves and you continually learn. This can be an exhausting experience for you, as you will find her quite uncompromising. Changes are demanded from you and you can no longer rely on superficial charms or childhood tricks. Your relationship involves a constant ongoing therapy but this probably accords with your tastes anyway. There is a strong erotic bond and some degree of jealous control on Camilla's part. Paradoxically this makes you feel more valued.

Not content with a superficial relationship, you draw from each other an uncompromising intensity which necessitates a constant reinvention and rediscovery of the feelings you have for each other, even if this means provoking a crisis. Your erotic life is a testing ground for your love, and you strive to remove all emotional barriers in pursuit of a union of the soul. Consequently you grow to know each other intimately. In your daily life you also seek committed social relationships and avoid superficial contacts. You may have a talent for discovering beauty in surprising places because of your capacity for transforming dross into gold. In the same way, you seek to transform Charles by getting him to eliminate old behaviour patterns and cultivate new ones.

You exert a magnetic influence on Charles and your presence draws out his hidden depths.

DESIRE: Sexuality is an essential ingredient for long-term satisfaction in a relationship, and this is shown by Mars in the horoscope. For a man this planet will also symbolise his masculine identity, whilst for a woman the sign Mars is in, and its aspects, will often show the kind of man she is attracted to. Mars will also show how you work together, and your ability to fight for what you need. Where Mars is, there is trouble, because issues of survival and self-assertion are paramount. In our civilised society both sexes tend to repress Mars - though women will do this more than men - and this may often mean that one's own aggression or oppression comes to expression in the partner's behaviour.

Mars in Sagittarius

Widen your horizons

You are a dynamic truth seeker, and nurture strong opinions on many matters ... and you are prepared to fight for them. Something of a pioneer, you enjoy travel and adventure, and cherish the spirit of freedom. You are a fighter for causes, a strong believer in right-and-wrong and the principles of justice. In relationships, quarrels easily arise if you feel unfairly treated or where there are disagreements over matters of principle. You tend to insist on being right, or on giving your opinion when not asked. Give your partner a better hearing.

Mars in 5th House

Pushy romance

You have a sparkling and direct way of expressing your energies and make quite an impression on other people when you choose to. This is an area in which you strive to gain understanding and expand your horizons - both intellectually and through travel. You also have a certain erotic charisma whether you are aware of this or not, and this means that you may easily attract potential love-affairs. You need to feel the tension associated with erotic attraction, and you can spend a lot of energy in pursuit of bodily pleasures which as far as you are concerned add spice to life. To ensure stability in long-term relationships you need to channel this energy creatively - either with children or in a profession which requires forceful self-projection.

Charles's Mars in Camilla's 5th House

You awaken Camilla's self-awareness and inspire her to make a greater effort to project her unique individuality. Being together creates mutual arousal of erotic desires and pleasures and brings out a capacity for excitement and risk-taking. Children are important but often bring trouble.

Mars in Gemini

Develop mental prowess

You have a sharp intelligence and are very stimulated by witty exchanges and mental provocation. Your knowledge and verbal gifts are important factors in the art of seduction. You tend to send your amorous arrows off in many directions, and this may result in multiple-choice dilemmas in matters-of-the-heart. In other words you may get involved in more than one relationship, though you are rarely aiming for a deeper involvement. You must watch a tendency to sarcasm or being quarrelsome - you can be rather wounding.

Mars in 11th House

Erotically charged groups

You throw your energies into community ventures, networks, and groups, tending to take the initiative in these matters. You are an ardent gatherer of knowledge and information in this area and often create a communication network to facilitate the matters described. Friendships take up a lot of your time and energy so probably you need a partner who respects your desire for active social involvement. In the groups with which you are involved, conflicts may arise because of your willingness to stick your neck out or perhaps because of a pushy style. You may be a fierce fighter for some form of social vision. There is a possibility that problems arise in your partnership because of children who are not your own. Erotic adventures may develop from innocent friendships.

Camilla's Mars in Charles's 11th House

You inspire Charles to be more outgoing in his social relations and you tend to take the initiative when involved with influential groups. However, you often stick out amongst his friends and acquaintances, perhaps because of your provocative opinions and behaviour.

Your ability to express your will and desires is considerably modified by the influence of other planets in your horoscope upon your Mars. These aspects show how you might best express yourself sexually and the kind of problems that may arise when you do. For women, aspects to Mars will often describe the behaviour of the man in the relationship. If this appears to be so, then projection is at work. By learning to be more clear-thinking, and asserting your genuine needs, these negative projections may be eliminated or at least modified.

Mars negative Jupiter

Bully boys

You have a strong sense of freedom and an adventurous nature. You are motivated to explore your world and widen your intellectual horizons and this may bring travel, absorption in studies and wide cultural interests. You have very strong opinions and are very persuasive - it is important for you to be right and you fight hard putting your point of view across. Arguments often arise when you feel that someone is being unfair or acts stupidly. You have a tendency to adopt a bullying tone and have difficulty entertaining the idea that you might be wrong. Your self-righteousness is a threat to your relationship.

You have strong appetites - both intellectually and sexually - and generally you get what you want, though with little consideration for the sensibilities of others. You may have strong moral ideals but they are no match for the power your desires have over you.

Mars positive Pluto

Power-play

You are a powerful person - of that there is no doubt - and have a steely will which ensures that you get your way when you put your mind to it. Generally you are motivated to create positive change in your environment and fight corruption. Sexuality is extremely important for you in a relationship and you have a magnetic, even hypnotic aura which may exert a mysterious hold upon your loved one. You have the power to completely ignore sex for a period, whilst at other times you are possessed by its attractions. You tend to take control when making love and feel uncomfortable in a passive role - and this may hinder orgasmic release. Through sexuality, deep transformations take place in many areas of your life.

Mars positive Saturn

Problem crusher

You are a hard-working and determined person, strongly motivated though rather shy and careful and a little unsure of your abilities. You spend years building up your self-confidence both professionally, and in the arts of love, and ultimately you may achieve considerable success. You are not exactly comfortable with your body - which you tend to use as an instrument of your will - and this means that you are slow to arouse sexually. You should treat your body more tenderly, go to body-building classes or enjoy an occasional massage.

You are attracted to a serious and responsible man who can give your life structure and direction. Sexual expression is not a high priority and you may find your partner dutiful, but lacking in passion. In time you discover that this has more to do with your attitude, than his. If you want better sex, then you have to loosen up, especially if you come from a morally "uptight" family.

Mars positive Neptune

Going for the dream

You are a very idealistic person with many dreams and visions concerning how things should be in the world - though there is no guarantee that you have the will to put your visions into practice. In relationships you are helpful and well-motivated, though this energy is often channelled into creative or social projects. You imagine the best in others but are often cruelly disappointed in their behaviour. However, seen objectively, your own actions are often far below your professed ideals.

Mutuality: Please note that in this case both Charles and Camilla have an aspect between the same two planets. This shows a strong bond, and increases compatibility and stability in the relationship. Mutuality - positive: As the shared aspect is positive for you both, it will give great happiness, and give you both a pool of resources to draw from. You will share the same area of interest and activity, and agree in your outlook on this area. Mars/Pluto: In this respect the important challenges for you both are in channelling the strong passions which well up from inside and threaten to take precedence in your behaviour. Dealing with your desire-nature and overcoming negative emotions is achieved through psychological insight and sheer hard work.

The interaction between Mars in one horoscope and the planets in the other, has a profound effect on how you are able to express your will and fulfil your desires. These contacts will also show what form of sexual expression characterises the relationship. Also you may expect both conflict and excitement in the areas specified in this next section.

Charles's Mars negative Camilla's Uranus

A short fuse

Though not necessarily a dominating factor in the relationship this is a somewhat explosive and temperamental combination. This is partly due to the fact that Camilla finds what you do and the way you do it extremely provocative, and in turn reacts in a completely unpredictable manner. This awakens your anxiety and subsequently a defensive or even aggressive response from you. Both you and she are seeking excitement and adventure - you find yourselves on the fringe of society when you are together. Long-distance travel, cultural clashes, unconventional interests and activities characterise your relationship. It is in the nature of the bond that there may be regular periods of separation. Camilla has the irritating habit of pointing out faults in the way you handle situations. There is also a tendency to go to extremes sexually - and though there is a constant erotic spark, the tension can be too disturbing in the long run. Relationship-security is low because she so demonstratively insists upon her personal freedom.

This is a profoundly provocative contact which ensures that your relationship is never lacking in excitement, though it may well leave you longing for peace. Charles's actions and initiatives seem to strike a raw nerve in you, so that you react completely unpredictably, making co-operation almost impossible. You both tend to become very temperamental, if not explosive, perhaps because you would rather be free than possessed. Sexually, too, a nerve is touched, and though you can be wild and uninhibited together, excitement is probably at the expense of tenderness and intimacy. Something about you is exotic and different and this wrenches Charles out of his usual working rhythm. Considerable personal development and consciousness change may take place under your influence, but not without pain and discomfort.

You feel a strong need to indicate to Charles that you will in no way permit his actions to impinge upon your freedom. No compromise, no harmony.

There is however no guarantee that the inspiration you receive from him puts you on the right path - you are easily blinded by a tendency to idealise him or see qualities in him which he may not possess. He lays down no moral guidelines and this can mean that you get involved in some form of self-deception. Nowhere is this more true than in erotic matters. As far as sexuality is concerned there is a strong dislike of routine. Charles is looking for the magic of seduction and the excitement of being wooed. Spiritual magic and sensory stimulation, music and wine, nature and the elements - this is where erotic stimulation is found.

OTHER ISSUES

CONTACTS AND COMMUNICATION: However strong the bonds of love, in the long term a healthy relationship also depends on the ability to listen to and understand each other. Many relationships founder on poor communication, once the fires of romance and sexuality abate.

The ability to communicate is shown by Mercury in your horoscope, and the following section shows the strengths and weaknesses you have in this area, their effect on your partner, and steps you can take to improve on the contact between you.

Mercury in Scorpio

Depth analysis

You are a quiet and rather secretive person - you keep your ideas to yourself but very few things escape your attention. You have a natural psychological ability which helps you empathise with and understand others. Communication problems arise because you tend to use silence to express disapproval. Your partner does not know what you are thinking - perhaps it would pay you to make the effort to express your thoughts.

Mercury in 4th House

Your thoughts and concerns are centred around home and family, and sibling relationships exert a profound effect upon your mental life.

Charles's Mercury in Camilla's 4th House

You are strongly concerned your partner's family and you can facilitate communication for Camilla in family matters. Your relationships to the extended family - brothers, sisters, cousins, etc., can make your family life a busy affair. She would be well-advised to pay attention to your ideas and opinions regarding property and land.

Mercury in Cancer

Trust your intuition

Mentally, the waters run deep in your nature. Intuitive and supportive, you have a fine talent for tuning in to the thoughts of your partner. However, you tend to worry and your imagination may be a double-edged sword if you start thinking negatively. You should make more effort to communicate clearly and unemotionally, if you want to avoid misunderstandings.

Mercury in 12th House

Your communicative skills find their best expression in the inner world of your imagination. You have a great capacity to tune in to the inner voice of nature and other subtle spiritual currents.

Camilla's Mercury in Charles's 12th House

Being with Charles leads to an inner attunement to thoughts and ideas which can be useful to you both creatively and spiritually. You may find that communication between you is less than straightforward - as if it were difficult to put into words, the myriad of impressions which your relationship inspires in you.

Aspects between the other planets in your horoscope and your Mercury will show talents or challenges with regard to your ability to express your ideas and be open to other people. These aspects describe the specific ideas you have and the kind of reactions you evoke in others through the way you communicate these ideas.

Mercury positive Saturn

A considered thinker

You can be shy and taciturn, and are rather defensive in intellectually challenging situations. Nevertheless, with time you attain a mature intelligence which ensures that you pay attention to what your partner says, and take good time yourself to get your message across. You may be a plodder but you get things done.

Mercury positive Jupiter

Listening and understanding

You are a gifted and intelligent person with an ability to understand others and communicate well. Humorous and tolerant, you know how to reach your partner mentally and can be very persuasive. You combine an insatiable curiosity for facts with the ability to see the truth in the larger context.

The interaction between Mercury in the one horoscope and the planets in the other, has a profound effect on your ability to communicate with and understand each other. The following section shows the ease or difficulty your partner has in communicating with and understanding you, and the kind of situations that may arise as a result.

Charles's Mercury negative Camilla's Saturn

Communication block

You may have instinctively sensed, when you first met Camilla, that this relationship would be especially challenging for you mentally. Where you normally feel you can express your ideas spontaneously and be listened to, she demands a far greater degree of common sense, discipline and thoughtfulness. Unfortunately this is a very restrictive experience for you because it forces you to put a hold on your natural humour and playfulness. Actually she may feel subconsciously threatened by your talents and react accordingly. If you are smart you will see through this and be understanding. Also there are definite advantages for you in learning to get organised mentally which she forces you to do. The great battle here is to overcome negativity when you talk together and to strive to be open and polite. In choosing Camilla, you chose to learn some important lessons about communication.

Badly-prepared ideas on your part fall like seeds on barren earth. Camilla does not appreciate your flippancy, so learn to express yourself clearly and with a definite purpose in mind.

Camilla's Saturn negative Charles's Mercury

Communication block

Your relationship is dogged by communication difficulties which both of you have to work hard to overcome. Spontaneous chat, humour and general light-heartedness is not what your relationship is about - it is as if you are locked into a tight close-knit bond which necessitates mental struggle and intellectual self-improvement. Having accepted this, it is important for you not to make things more difficult by being negative. You have a tendency to judge Charles too hard and demand standards of honesty and clarity which only inhibit him more. If you show dissatisfaction with his abilities, he will naturally feel even more clumsy. If the truth be known, Charles activates some of your own inferiority complexes and you react by limiting him. Knowing this, strive to be encouraging and supportive - especially regarding Charles's desire to improve upon his skills.

When Charles is light-hearted you tend to interpret it as immaturity. Lighten up.

Charles's Neptune negative Camilla's Mercury

Foggy communication

Though not the most powerful influence this contact can lead to misunderstanding in your communication together. If you are around the same age then the problems Camilla might have generally with speaking clearly and making herself understood, become projected onto you. In general, thinking you have grasped what Camilla is saying, you may often misinterpret things, or whilst striving to understand, you may feel your mind getting more and more foggy. This problem is compounded by an innate desire not to offend which can mean that half-truths are told. Alternatively you may say what you think the other person wants to hear. When communicating, you must grasp the nettle and say exactly what is on your mind, no matter what you think the consequences may be.

Charles's Mercury negative Camilla's Pluto

Interrogation

Although this may not be a major influence in your relationship, this contact does tend to complicate communication. Nothing can be said lightly, every remark can be made the object of in-depth analysis. Exhausting discussions tend to drag on about seemingly meaningless issues. Actually the issues are intelligence and power. Your natural communicativeness evokes irrational anxiety in Camilla who subconsciously responds in an obstructive or suspicious manner. This only serves to make you keep your mouth shut and as a result, long periods of silence may ensue. She has the resources to keep this up indefinitely. Your awareness that this habit is based on her deep-seated anxiety can help you defuse this potentially destructive communication-pattern.

Mercury Camilla negative Neptune Charles

Foggy communication

Though not a major influence, this connection aggravates a latent tendency to avoid unpleasant truths with evasions and half-lies. Neither of you likes to create a bad atmosphere through disagreement. You feel that Charles has high - perhaps unrealistic - expectations of you and you do not want to disappoint him. Misunderstandings arise through lack of clarity and the tendency to say what you think he wants you to say. The solution is to be direct and honest and thus remove any illusions Charles may have about you. This contact demonstrates the meeting of the rational and the irrational - and the resultant confusion.

You strive - often unsuccessfully - to understand the non-verbal and irrational states of mind which Charles experiences. Silence is golden.

Camilla's Pluto negative Charles's Mercury

Interrogation

This influence has a powerful effect on a mental level as you tend to exacerbate a latent tendency Charles has to wrestle with his thoughts to the point of exhaustion. Irrational worries and suspicions may plague the relationship and result in lengthy interrogations about your motivations and secrets at one extreme, and punishing silences at the other. Even though it may be difficult for you, you should try to allay your partner's suspicions through the antidote of openness and avoid getting drawn in to futile discussions which only serve to exhaust you both. You have considerable hypnotic power over Charles and you may be tempted to misuse this by playing on his anxieties. It would help you both to learn about the nature of the mind through psychological interests.

BELIEFS AND UNDERSTANDING: The planet Jupiter shows the area in your life in which you express optimism, hope, and a belief in the future. When transposed onto your partner's horoscope it shows where you can most inspire your partner. The sky's the limit

Though not so important on an intimate level, this contact tends to bring surprises and radical change when you least expect it. The relationship will often mean long-distance travel for you both, and perhaps periodic separation because of diverse interests and involvements. Being with Camilla is extremely provocative for you intellectually and spiritually, so you can expect many of your opinions and convictions to be overturned. In discussions - especially about matters of principle - it is like arguing with a tornado. Considered conclusions become irrelevant as she unpredictably introduces a new angle you had never thought of. Vision is converted into crazy reality without adequate preparation.

Charles's Pluto negative Camilla's Jupiter

Ideological fanaticism

Though not so powerful in your personal everyday life this contact brings tensions on an ideological level - tensions which may have been in Camilla as a potential before she met you. Confrontations arise between her and you over deeply-held beliefs. You stand for an implacable evolution of thoughts and ideas, which prevents her being comfortable with the views she espouses. At times Camilla will feel that you are prepared to sacrifice the integrity of the relationship for the sake of an ideal. If you find yourself introducing ultimatums over spiritual, philosophical or psychological issues then you are being led astray by what in fact is your own existential anxiety. You both have to be careful not to get drawn into powerful organisations when they are likely to be driven by theoretical convictions at the expense of humane considerations.

When you get an idea in your head the persuasive powers of Camilla will have no effect - much to her

The sky's the limit

Though not very significant on a personal or emotional level, this contact nevertheless exerts a profoundly revolutionary influence on the views and convictions with which Charles is normally so comfortable. You are constantly challenging and provoking his beliefs, in a more or less conscious effort to open his mind. Travels to exotic lands and cultures, shocking philosophical revelations and the bizarre beliefs which you entertain, may all serve your purpose to shake him out of his normal safe channels of thought. It is an open question as to whether this is beneficial for Charles or not, and you should be very clear about your motivations for intellectual provocation. There is a danger of losing your grounding.

Ideological fanaticism

Though this contact is not a major emotional factor in your relationship it does affect your beliefs and ideologies, which are dramatically shaken up and transformed through contact with Charles. Many of your views and visions about the future awaken anxiety in him, though he will not show it, reacting instead by vetoing them or creating scenes of exhausting intensity, characterised by intense discussions about matters of supposed principle. The fact is he is prepared to risk everything in ideological discussions with you, even though your relationship may be healthy enough in other areas. Beliefs may be the subject of ultimatums conveyed from him to you, with the result that you find yourself adopting views with which you are uncomfortable. Take care not to be drawn into fanatical organisations which misuse religion or ideology, and put ends before means, and principles before people.

CHALLENGES AND POWER GAMES: The planet Saturn shows where you experience and overcome the major challenges of life. Transposed onto your partner's horoscope, it shows in which area of your partner's daily life you make the greatest demands on your partner's patience and sense of responsibility, and what kind of challenges arise as a result. There is no escaping the difficulties encountered here, but this influence is nevertheless a major growth factor in the relationship.

Charles's Saturn in Camilla's 2nd House

There are many areas in Camilla's life in which you feel there is room for improvement but your negative attitude tends to undermine her sense of self-worth - at least in the early stages of the relationship. You may quite rightly feel that better organisation of material resources would help Camilla considerably. Where she is extravagant you see the need to economise, where she is careless with belongings you strive to teach her an appreciation of value. You may find yourself more or less willingly becoming her financial manager.

Camilla's Saturn in Charles's 1st House

Being with Charles evokes a strong sense of responsibility from you with regard to his life and you feel the need to use your influence to force him to become more organised and define a sense of direction in his life. As far as his life-style is concerned you feel there is room for improvement. He may well feel that you are too authoritarian and you may feel forced into a parental role which you have no desire to shoulder. In the long run you can have a positive effect, though at the beginning it seems to him that you are just "heavy".

Communication block

You may have instinctively sensed, when you first met Camilla, that this relationship would be especially challenging for you mentally. Where you normally feel you can express your ideas spontaneously and be listened to, she demands a far greater degree of common sense, discipline and thoughtfulness. Unfortunately this is a very restrictive experience for you because it forces you to put a hold on your natural humour and playfulness. Actually she may feel subconsciously threatened by your talents and react accordingly. If you are smart you will see through this and be understanding. Also there are definite advantages for you in learning to get organised mentally which she forces you to do. The great battle here is to overcome negativity when you talk together and to strive to be open and polite. In choosing Camilla, you chose to learn some important lessons about communication.

Camilla's Saturn negative Charles's Mercury

Communication block

Your relationship is dogged by communication difficulties which both of you have to work hard to overcome. Spontaneous chat, humour and general light-heartedness is not what your relationship is about - it is as if you are locked into a tight close-knit bond which necessitates mental struggle and intellectual self-improvement. Having accepted this, it is important for you not to make things more difficult by being negative. You have a tendency to judge Charles too hard and demand standards of honesty and clarity which only inhibit him more. If you show dissatisfaction with his abilities, he will naturally feel even more clumsy. If the truth be known, Charles activates some of your own inferiority complexes and you react by limiting him. Knowing this, strive to be encouraging and supportive - especially regarding Charles's desire to improve upon his skills.

Badly-prepared ideas on your part fall like seeds on barren earth. Camilla does not appreciate your flippancy, so learn to express yourself clearly and with a definite purpose in mind.

When Charles is light-hearted you tend to interpret it as immaturity. Lighten up.

Demolition

Though not so significant on a personal level in everyday life, this contact brings issues of power and authority to the fore. At times of crisis an atmosphere of ultimatum may pervade your relationship, in which Camilla's experience and authority are pitted against something even more powerful in yourself. This is a battle which you are ultimately destined to win, though you reap no advantage from it. This is because you are prepared to see the hard-won structures of your life shipwrecked on the rock of your wilfulness, whilst Camilla is not prepared to lose what she has invested in the relationship. In your outer life there are dangers through involvement with powerful institutions, whether they are institutions of state or more secretive underworld groups. In both your personal and public lives it is important to extricate yourselves before damage is done.

Demolition

Though not normally so important on a personal level this contact is nevertheless significant whenever power or powerlessness are issues. Whenever there is a battle of wills you will find that your normal decisiveness and authority is effectively trumped by Charles. Why? he is prepared to take a loss, you are not. He is willing to see the whole edifice of your relationship crumble to achieve his will and you are not. It is therefore wise to side-step irresolvable issues if you want to avoid unpleasant ultimatums. Psychological issues may also be important in the relationship, perhaps because of Charles's tendency to go to extremes when confronted by what he sees as your inflexibility.

At times of crisis Charles may show little respect for what you have built up, so take care.

Course without compass

This influence manifests itself most strongly in your reactions to the professional and family life of your partner. You often feel dissatisfaction with her pursuit of her professional goals and would like to see her integrate greater social concern, greater creativity perhaps, into her career. You may feel a certain helplessness or powerlessness in the face of her executive abilities or you may simply feel isolated from that area of her life. The results of this inner discontent are that Camilla feels professionally undermined and is at a loss as to how to pursue her career and satisfy you at the same time. Your capacity to advise her in this respect is very limited, as your own confusion muddies the waters. You may also feel isolated in family matters too, especially because your own ideals in this area tend to be unrealistic and inapplicable.

There has to be something to work on and overcome in a relationship. The final column shows general compatibility between both people.
